

# PEAKMETER®

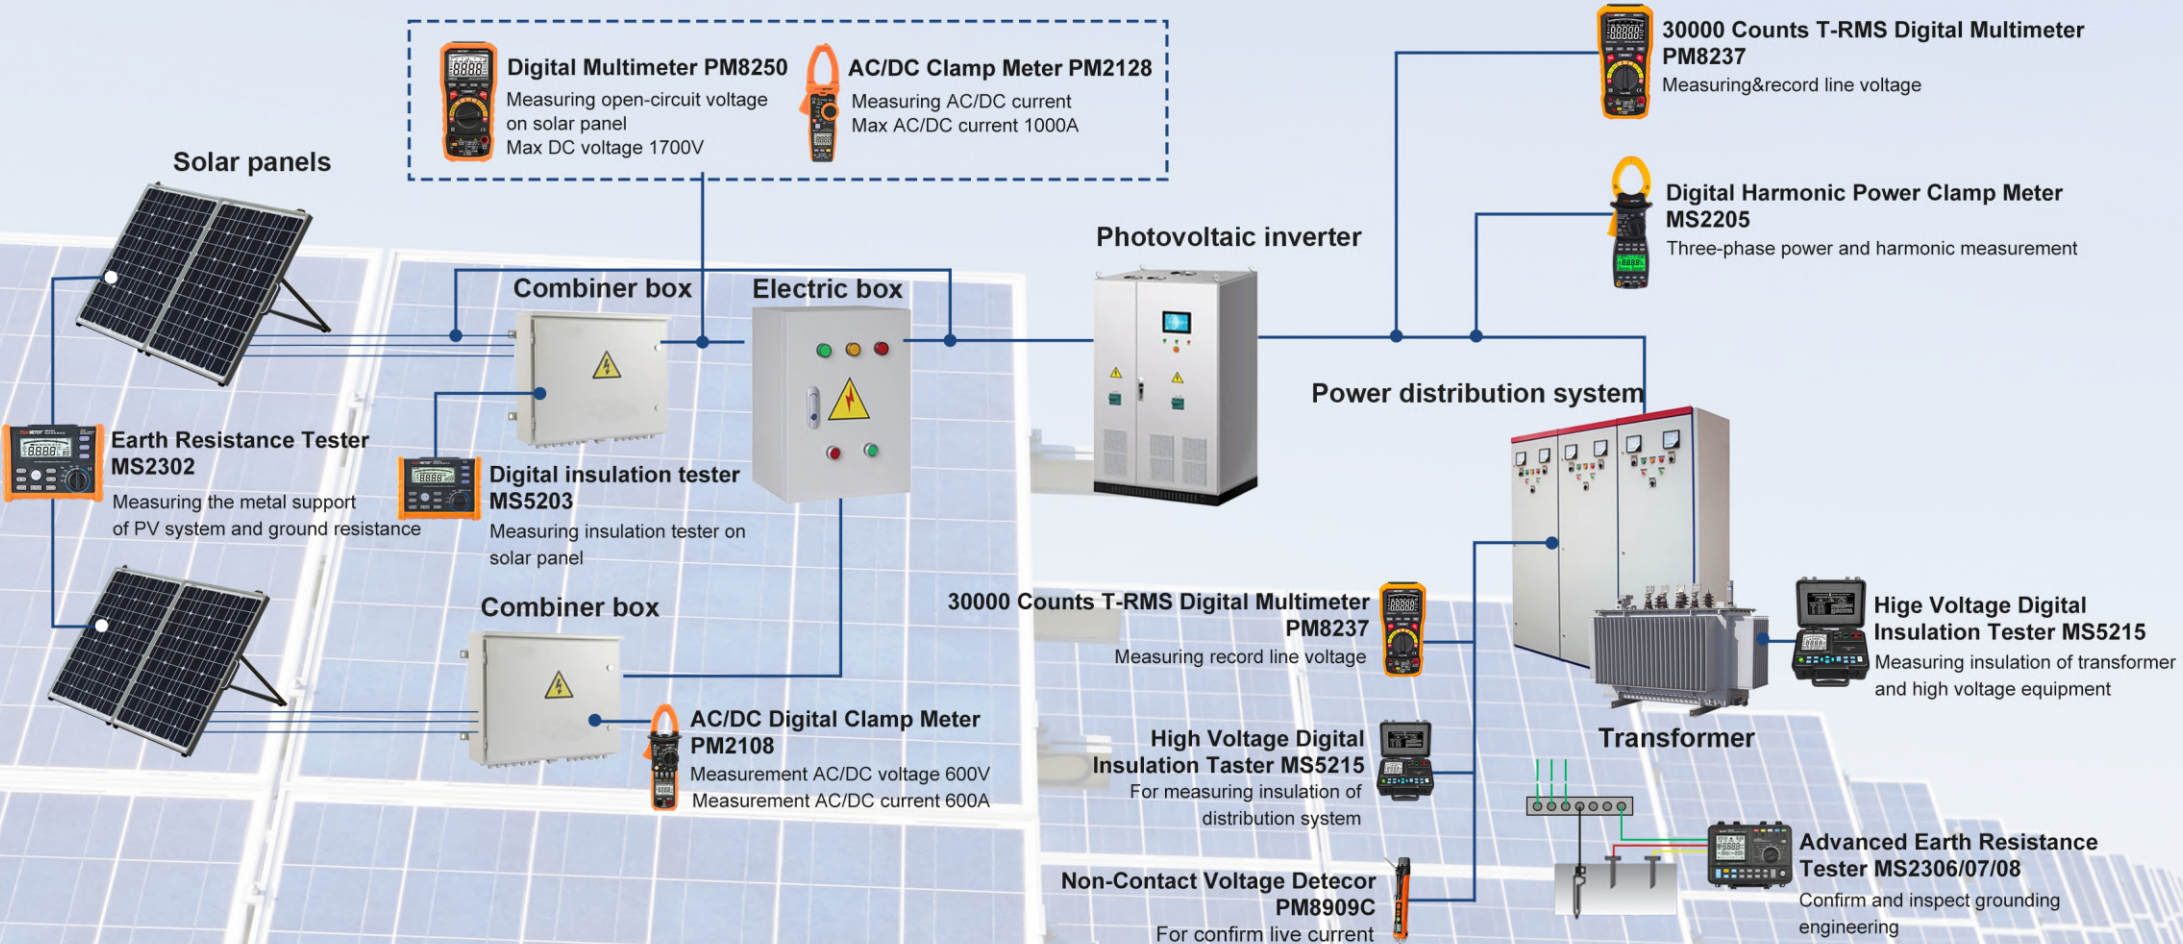

## 华 谊 仪 表

Peakmeter Product Lines are  
Applied in Solar Energy

Guilin Huayi Peakmeter Technology Co., Ltd

Customer Service: 0773-3682306

Website: [www.peak-meter.com](http://www.peak-meter.com)

3 years warranty

## Earth Resistance Testers MS2302

Measuring ground resistance between metal bracket and main ground net of ground photovoltaic system

1. Store measured data(up to 100 groups).
2. Ground voltage(up to 600V).
3. Ground resistance of different device(Such as high voltage tower, building, EE ground system, mobile communication base station, high-frequency transmitter etc.).
4. Can be used for monitoring and planning lighting protection system.
5. Measuring resistance with ground pole.

## Digital Insulation Tester MS5203

Measuring insulation resistance of solar panel

1. Can lock down data and set up timing during insulation test.
2. Output 1000V max to measure insulation.
3. Storing, read and compare data.
4. The instrument will discharge automatically to protect user when the load is capacitive.
5. Auto calculate PI(Polarization Index) and DAR (Dielectric absorption ratio).

## 1700V Digital Multimeter PM8250

Measure Voc of solar panel(up to 1700V)

1. Measure DCV(up to 1700V).
2. Filter harmonic(LPF function).
3. MAX, MIN and AC peak.
4. Measuring temperature with K-type probe(-20~1000°C).

## AC/DC Digital Clamp Meter PM2108

Measuring 600V AC/DC, 600A AC/DC

1. AC/DC current, AC/DC voltage, resistance, frequency, duty cycle, capacitance etc.
2. Auto and Manual range.
3. Inrush Current, auto zero function(at DCA range).
4. Measuring AC/DC voltage up to 600V.

## AC/DC Digital Clamp Meter PM2128

Measuring AC/DC current(up to 1000A)

1. Low impedance measurement to make result more accurate.
2. Full range with overload protection.
3. NCV: When voltage>90V AC, buzzer and light will alarm
4. AC/DC current(up to 1000A).
5. Complies with EN-61010-1, EN61010-2-030.

## 30000 Counts T-RMS Digital Multimeter PM8237

Measuring and record line voltage

1. Analog bar and digital dual display, True RMS, 30000 counts high accuracy.
2. Filter harmonic(LPF function).
3. Upload data to computer with USB interface.
4. Measuring transistor with multifunctional test stand.
5. Fast-fusing fuse: 600mA/1000V and 10A/1000V.

## Digital Harmonic Power Clamp Meter MS2205

Measuring 3-phase power and harmonic for distribution box system

1. Applied for single, three-phase circuit measurement, auto ranging on three-phase testing.
2. Accurate measurement on current big wave.
3. Used professional single chip microprocessor with low power consumption, max measurement 20 times harmonic and various.
4. Mass memory for 100 groups data saved.
5. Provided RS232C connection interface and Windows graphics software.

## High Voltage Digital Insulation Tester MS5215

Measuring insulation of power distribution system

1. Insulation Resistance up to  $5T\Omega$ .
2. Insulation Resistance measurement with 5 levels of voltage output, max voltage 5000V.
3. LCD display the result for comparison data .
4. Auto calculate PI(Polarization Index) and DAR (Dielectric absorption ratio).
5. Data storage,check and clear functions. Max 99 group data saved.

## Non-Contact Voltage Detector PM8909C

AC Voltage detector

1. Non-contact detector AC voltage, AC various signal, LCD display related signal intensity.
2. Ac voltage detection range: about 12~1000V/ 48~1000V.
3. Two screwdrivers for disassembly function.

## Advanced Earth Resistance Tester MS2306/2307/2308

Confirm and inspect the grounding engineering

1. 2 pole resistance measurement, 3 pole & 4 pole earth resistance measurement.
2. Automatic frequency control (AFC), automatically identified interference frequency and selected the proper frequency.
3. Support 100 data storage, data transmission to PC by USB interface.
4. The device is applied in earth resistance measurement for power equipment with AC voltage under 5000V.

# PEAKMETER®

**We will provide professional OEM service to meet customer various requirement.**

**Peakmeter Introduce**

Guilin Huayi Peakmeter Technology Co.,Ltd is a world-famous company and high-tech enterprise in the manufacture of electronic test tools. Company has a sound management system, including R&D, production&assembly, mould&injection and silk-print department. Company has 100 strategic partner from 60 countries and regions around the world. Science, technological innovation and service customer with sincerely is our pursuit, we strive to strictly control quality on production, persistent on PDCA improvement system for ensuring to provide high-quality products and satisfied service.
